Phalaenopsis

Do well in indirect day light. Spring, Summer & Fall only early morning or late afternoon sun is tolerated.

Temp : 55-85˚F (12-30˚C)

Water : Should never go bone dry, DRENCH when barely moist.

Fertilizer: 1/3 of prescribed dose every 2-3 weeks.

Best in a mix that retains moisture well (plastic pots are recommended).

Sphagnum moss can be used by itself, or mixed with 25% bark.

A bark mix can be used, but you need to water more frequently.
