Sarcochilus

This Australian Vanda relative needs LOW light (same as Phalaenopsis & Paphiopedilum).
Should be grown indoors only, as *it does not tolerate high temperatures.*

Temp : 45-80˚F (7-27˚C)

Water : Consistently moist, but not soaking wet.

Fertilizer: 1/3 of prescribed dose every 2-3 weeks.

Can be grown in:

- **Plastic pot with fine bark mix.**
- **Tree fern ‘baskets’**
