Dendrobium nobile

Fair Orchids
www.fairorchids.us

Do well in East or West facing windows; spring/summer/fall the mid-day sun is too strong.
Can go outside into dappled shade late May thru middle of October.

Temp: **35-85˚F (2-30˚C)**

Water: **From bloom till 10/15 it should not dry out. 10/15 till buds form, water every 3 weeks. Once buds puff up, water normally.**

Fertilizer: **1/3 of prescribed dose every 2-3 weeks till Sept 15th. Then, NO fertilizer till buds open.**

Can be grown in sphagnum/bark mix (4:1), or a fine bark mix.
Clay pots are recommended for tall plants.
