Oncidium hybrids

Do well in East or West facing windows; spring/summer/fall the mid-day sun is too strong. Can go outside into dappled shade May thru September.

Temp : 55-85˚F (12-30˚C)

Water : Should never go bone dry, DRENCH when barely moist.

Fertilizer: 1/3 of prescribed dose every 2-3 weeks.

Plastic pots are recommended.

Both sphagnum/bark mix (4:1), and a fine bark mix works.
