Paphiopedilum

Do well in indirect daylight (same as Phalaenopsis). Spring/summer/fall only early morning/late afternoon sun is tolerated. Can go outside into full shade late May thru September.

Temp : 55-85˚F (12-30˚C)

Water : Should never go bone dry, DRENCH when barely moist.

Fertilizer: 1/3 of prescribed dose every 2-3 weeks.

Plastic pots are recommended.

Both sphagnum/bark mix (4:1), and a dedicated Paph bark mix can be used (*Paph mix differs from Cattleya mix!*).
