# Dendrobium

Latouria section

**Do well in East or West facing windows; spring/summer/fall the mid-day sun is too strong. Can go outside into dappled shade late May through September.**

**Temp : 55-85˚F (12-30˚C)**

**Water : Consistently moist mid Feb to mid Nov. 11/15 to 2/15 let it dry between waterings.**

Formosae section

**Fertilizer: 1/3 of prescribed dose every 2-3 weeks, NO fertilizer 11/15 to 2/15.**

**Both sphagnum/bark mix (4:1), and a fine bark mix works.**
**Clay pots are recommended for mature plants.**
